PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of periodicals and newspapers, issues of which were registered in the Copyright Office in Class B from January 1, 1950, through June 30, 1950. Foreign periodicals registered in Class A under the symbols AF and AI, will be found in Part B. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement.—The main section of the catalog consists of a list of complete entries arranged alphabetically under title, together with cross-references from variant forms of the titles, and, when necessary, from specific titles of individual issues.

The second section is a list of *New Periodicals*. It contains the titles of those periodicals of which issues in the first year of publication were registered in the Copyright Office during the period covered by this catalog.

Bibliographic Data.—The complete entry combines bibliographic and copyright information. Bibliographic information includes, as applicable, for all periodicals other than daily newspapers, 1) title; 2) changes in title recorded by the phrases "Continuing" and "Continued as," 3) volume number; 4) year of publication; 5) issue number for each issue registered; 6) issue date for each issue registered.

For daily newspapers a condensed entry is used which includes a statement of frequency of issue but lists only the first and last issues in each unbroken sequence.

Periodicals which are issued by societies, institutions and other corporate bodies and bear such non-distinctive titles as Transactions of, Journal of, Annals of, Bulletin of, followed by the name of the issuing body are entered under the latter for example: American Medical Association. Journal; National Association of Secondary School Principals. Bulletin.

Periodicals with two or more titles connected by such phrases as "combined with," "incorporating," etc., are recorded in the manner indicated by the following example: Flying models—Flying aces and air world.

Copyright Data.—Each portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. The information includes 1) the name of the copyright claimant, 2) publication date of each issue as given in the application, and 3) copyright registration number for each issue.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the

deposit of copies as required by section 13 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* “shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these regis-

trations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The Annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of periodicals and newspapers, issues of which were registered in the Copyright Office in Class B from July 1, 1950, through December 31, 1950. Foreign periodicals registered in Class A under the symbols AF and AI, will be found in Part 1B. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement.—The main section of the catalog consists of a list of complete entries arranged alphabetically under title, together with cross-references from variant forms of the titles, and, when necessary, from specific titles of individual issues.

The second section is a list of *New Periodicals*. It contains the titles of those periodicals of which issues in the first year of publication were registered in the Copyright Office during the period covered by this catalog.

Bibliographic Data.—The complete entry combines bibliographic and copyright information. Bibliographic information includes, as applicable, for all periodicals other than daily newspapers, 1) title; 2) changes in title recorded by the phrases "Continuing." and "Continued as." 3) volume number; 4) year of publication; 5) issue number for each issue registered; 6) issue date for each issue registered.

For daily newspapers a condensed entry is used which includes a statement of frequency of issue but lists only the first and last issues in each unbroken sequence.

Periodicals which are issued by societies, institutions and other corporate bodies and bear such non-distinctive titles as Transactions of, Journal of, Annals of, Bulletin of, followed by the name of the

issuing body are entered under the latter for example: American Medical Association. Journal; National Association of Secondary School Principals. Bulletin.

Periodicals with two or more titles connected by such phrases as "combined with," "incorporating," etc., are recorded in the manner indicated by the following example: Flying models—Flying aces and air world.

Copyright Data.—Each portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. The information includes 1) the name of the copyright claimant, 2) publication date of each issue as given in the application, and 3) copyright registration number for each issue.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies as required by section 13 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be

sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
